

**Revision Checklist – Paper 1 (Physical Geography)**  
**Section 2 Option C: Glacial Systems and Landscapes**

Topic		Notes	😊	😐	😞
<b>Glaciers as natural systems</b>					
1.1	Systems concepts in glaciers				
1.2	Inputs, outputs, stores and flows				
<b>Nature and distribution of cold environments</b>					
2.1	Global distribution of glacial environments				
2.2	Physical characteristics of cold environments: climate				
2.3	Physical characteristics of cold environments: soil				
2.4	Physical characteristics of cold environments: plants				
2.5	Pleistocene glaciations				
<b>Glacial systems and processes</b>					
3.1	Glacial budgets				
3.2	Ablation and accumulation				
3.3	Warm- and cold-based glaciers				
3.4	Geomorphological processes				
3.5	Fluvioglacial processes				
3.6	Periglacial features				
<b>Glaciated environments</b>					
4.1	Erosional and depositional landforms				
4.2	Fluvioglacial landforms				
4.3	Periglacial landforms				
<b>Human impacts on cold environments</b>					
4.1	Environmental fragility				
4.2	Impacts of climate change				
4.3	Future management of cold environments				
<b>Case Studies</b>					
5.1	Case Study of a local scale glacial environment				
5.2	Case Study of an international glacial environment
